Several other adaptations of the Essays of Locke are available, including an edition of the Essay on Human Understanding by Ben Mezuch (1653), and the text is part of William Warburton's Essays on the Theory of Painting and Poetry (1759). Other editions of the Essays of Locke were published in German by Johann Ludwig Döllinger in 1803. In the late 18th century and the first half of the 19th century, the work was a popular textbook in German and Swiss secondary schools, where its topics were especially used to teach ethics and logic.
